

We have a great tool, an online map search you can use for locating properties

Go to <http://nv-churchillcounty.civicplus.com/index.aspx?nid=719> and click on the first map and then *View App* which appears in blue

From there, click on the **magnifying glass** at the top right side and enter the Assessor's Parcel Number ###-###-## and enter

Then click on any part of the green text that comes up and your map will come up, you can zoom out using the **minus sign on the left**

If you want you can change the type of map by clicking on the **four squares** to the right of the magnifying glass
